

Helping to **Solve** the U.S. **Opioid Crisis** with **Technology** by **sharing #knowledgeforgood today**

The CDC estimated that more than **71,000 people** in the U.S. died from drug overdose deaths in the 12-month period ending in January 2018.

Appriss Health is a responsible leader that has built and scaled a secure nationwide ecosystem of solutions, partners, government organizations, hospitals and health systems, pharmacies, and others to help make a difference in the opioid epidemic.

As the nation's leading provider of comprehensive substance use disorder (SUD) solutions, the results of our experience in building the infrastructure and best practices for **PDMPs, clinical workflow integrations, interstate data-sharing, advanced analytics for clinical decision support** and more have enabled us to continue our commitment to healthcare IT impact and innovation.

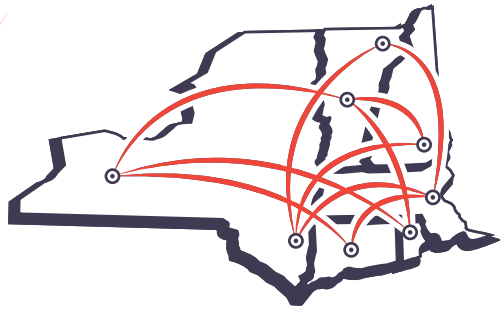

We are aligned with current legislative and government agency efforts to support the path forward, and have proven solutions for improved patient outcomes **ready to be rapidly deployed today** to address the complex opioid problem plaguing our communities.

PMP AWAR_XE

provides controlled substance (CS) information to healthcare providers helping them make more informed decisions about prescribing and dispensing.

44 PDMPs	15M patient searches per month
1.35M registered users	350M prescriptions per year

shares PDMP data across state lines. Users can see the number and type of CS prescriptions a person has received, regardless of the pharmacy or the state where they were dispensed.

49 STATES & D.C. actively govern & participate
NO COST to state PDMPs

324M interstate data sharing transactions in 2018
8+ YEARS in operation

enables secure access to data, analytics tools and resources from PDMPs within EHRs and pharmacy management systems, in real-time, at the point-of-care with audit trails.

40 STATES actively participating in PMP Gateway

16 STATES sponsoring PMP Gateway

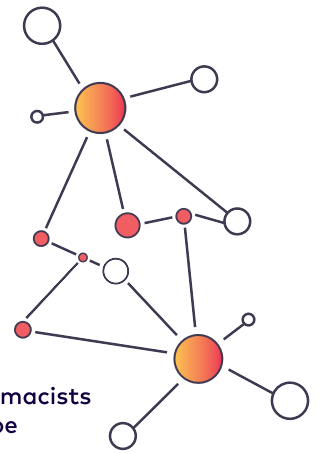

400K+ prescribers & pharmacists with integrated PDMPs

59K facilities nationwide with integrated PDMPs

130+ EHRs

25M reports per month

80% of all prescribers & pharmacists nationwide are able to be integrated today

aggregates and analyzes prescription information from providers, pharmacies, and additional data sets, along with advanced analytic insights, complex risk scores and more in a comprehensive SUD platform to help physicians, pharmacists and care teams to provide better patient safety and improved patient outcomes.

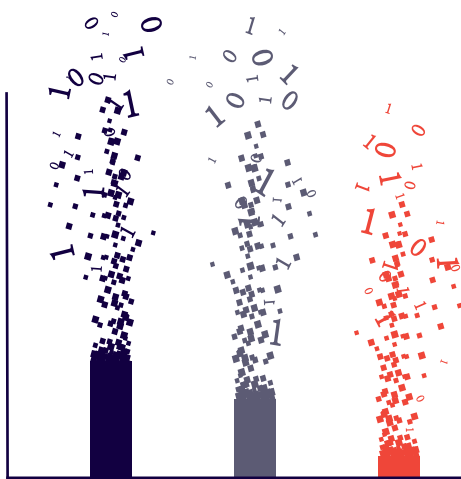

Transforming the PDMP

AI & machine learning

MAT & treatment locators

Coordination of care across the continuum

Real-time, objective insights & interactive visualizations at the point-of-care

670K+ prescribers receiving NarxCare Reports

31K+ pharmacy locations receiving NarxCare Reports

143,173,000 patients covered by NarxCare in 22 states
